

Job Title: Aviation Teacher, Grades 9 -12

Location: Midland Innovation + Technology Charter School
7 South 12th Street - Post Office Box 427 - Midland Pennsylvania 15059

Reports To: Principal

Job Type: Full Time Exempt

Job Summary: The Aviation Teacher will work directly with the Principal to provide instruction, support, guidance, manage the learning process, and focus on students' individual needs and performance. The Aviation teacher will monitor student progress through the identified learning management system and will actively work with students to advance each student's learning toward established goals.

General Duties:

- **Planning and Preparation**
 - Demonstrate knowledge and understanding of private pilot and unmanned aircraft curriculum
 - Understand overall diversity of assigned families and individual student characteristics; specifically, how this will impact planning for personalized learning
 - Use student data to drive instructional decision making and planning
 - Plan to ensure the inclusion of highly engaging student-centered tasks and activities that fill gaps in foundational learning, expose students to collaborative learning experiences and lead to conceptual personalized understanding of content
 - Utilizing a structured planning framework, submit lesson plans on a weekly basis that reflect a solid understanding of the content, the students, and available resources.
 - Provide small group differentiated planning that reflects personalized learning opportunities for students
 - Provide instructional outcomes that represent important learning suitable to students
 - Ensure elements of the instructional design, including assessments, align to goals.
 - Collaboratively plan with colleagues to meet the needs of all students within Professional Learning Communities

- Analyze student data individually and collaboratively in Professional Learning Communities to drive instructional adaptations within the learning environment
- Utilize instructional tools such as Google Apps for Education, online curriculum, and other resources to augment course content and submit planning and preparation documentation
- **Instruction**
 - Orient students to course and communicate course, unit and lesson outcomes on a routine basis
 - Maintain safe conditions during hands-on-learning
 - Deliver personalized instruction to help each student meet PA state standards
 - Utilize questioning, discussion techniques, and differentiated student tasks to ensure all students are engaged in learning
 - Demonstrate flexibility in contributing to the success of the lesson and of each student.
 - Adapt instruction to meet the learning needs of all students
 - Work with special education teacher to provide instruction that meets IEP requirements for special education students
 - Set and enforce deadlines for student work
 - Support parents with student curricular and instructional issues
 - Be responsible for student academic progress and student attendance
 - Conduct conferences with students and parents/caregiver
 - Grade student work and maintain grade book
 - Recommend promotion and retention
 - Maintain regular contact with students and families
 - Prepare students for state required testing
 - Attend IEP meetings as required
 - Complete Progress Reports for students
 - Alert administrators to any concerns about student performance and progress
- **Professional Responsibilities**
 - Maintain regular office hours, monitor student's course work, conduct differentiated instructional classes, complete grading, take part in daily professional learning community meetings, participate in school meetings, and maintain accurate records
 - Demonstrate professionalism and high ethical standards in all interactions with students, parents/caregivers, and staff members
 - Communicate with families on a frequent basis
 - Participate in new teacher induction training if you are in your first or second year of teaching.
 - Engage in training and professional learning
 - Participate in observation/mentoring meetings
 - Engage in reflective practices by completing self-evaluations and building & managing employee professional growth plan
 - Align professional goals with school wide goals and the Charlotte Danielson Framework for Teaching; participate in professional learning opportunities aligned with goals and Danielson Framework
 - Attend and participate in school-wide community events and school testing as required and assigned
 - Prepare reports as required
 - Proctor state testing
 - Compete in aviation competitions

- Provide students the opportunity to participate in flight training programs.
- Perform any other duties that may arise to fulfill the main objectives of the position and the mission of Midland Innovation + Technology Charter School.

Eligibility:
